## **A New Look for Driver's Licenses and ID cards**

The digital driver's license and ID card are now being issued throughout Illinois.

As Secretary of State, I understand the importance placed on driver's licenses and ID cards to validate identification. Recent changes in these documents will further safeguard their integrity and authenticity.

New security features include mini-printing, a UV pattern and encryption. When tilted, the bottom of the card reveals a horizontal retroreflective message. In addition, digital photos and signatures are being stored and will be useful in preventing fraud.

To report a fake driver's license or ID card, call 1-800-608-0561, 24 hours a day.

To schedule free training on how to use the security features in the cards, call Operation Straight ID at 1-800-596-2522.

Sincerely,

A handwritten signature in black ink that reads "Jesse White". The signature is fluid and cursive, with the first letters of "Jesse" and "White" being capitalized and prominent.

Jesse White  
Secretary of State

Many cards with laminates are still valid. Check the expiration date when examining a card to see if it's valid. If it appears expired, check the back of the card to see if it has a renewal sticker.

Cards on the left were issued from April 1, 1990, to December 31, 1993.

Cards on the right were issued from January 1, 1994 to 1999.
